

MS27: Anomalies Emerging in Mathematical Modeling and Probability Organizers: Simone Creo and Anna Chiara Lai***Monday, August 28th***

Time	Speaker	Name of the talk
15:45-16:10	Alessandro De Gregorio	Path dynamics of time-changed Lévy processes: a martingale approach
16:10-16:35	Giacomo Ascione	The delayed Brownian motion killed on a moving threshold and its anomalous diffusive behaviour
16:35-17:00	Gabriele Mancini	Local and nonlocal singular Liouville-type equations
17:00-17:25	Raffaella Capitanelli	Anomalous diffusion on irregular structures
17:25-17:50	Emiliano Cristiani	Managing Crowded Museums: Visitors Flow Measurement, Analysis, Modeling, Control, and Optimization. Two case studies
17:50-18:15
